SPEAR & LANCASTER, LLC TO ACQUIRE ENVIRO-CON SERVICES

Spear & Lancaster to acquire Enviro-Con Services, strengthening its environmental, health, and safety consulting capabilities with expanded expertise in mold and asbestos training courses.

[MAGNOLIA, TX, NOVEMBER 2024] – Spear & Lancaster, an expert environment, health, and safety consulting firm, proudly announces the pending acquisition of Enviro-Con Services, an esteemed firm specializing in EPA-accredited asbestos training and mold assessment and remediation training for both the industrial and commercial sectors. This acquisition will broaden Spear & Lancaster's capabilities, offering clients across various industries a more extensive range of services.

By integrating Enviro-Con's specialized knowledge, Spear & Lancaster enhances its resources and expertise. Clients will have access to additional services that ensure compliance with federal and state regulations while improving workplace health and safety.

This pending acquisition enables Spear & Lancaster to better serve clients in the industrial and commercial sectors. Combining both firms' strengths offers streamlined safety and compliance solutions, as well as access to an extensive library of training materials for the assessment and risk management of asbestos and indoor mold.

Spear & Lancaster looks forward to serving clients with the best resources available for protecting safety and health, soon to be enhanced by the acquisition of Enviro-Con Services.

About Spear & Lancaster, LLC

Spear & Lancaster, LLC is an expert environment, health, and safety consulting firm dedicated to helping organizations increase profits through the use of risk management and incident prevention techniques. Our two principals, Jerome Spear and Jeremy Lancaster, have over 60 years of combined experience assisting hundreds of national and international organizations in achieving greater profitability by reducing workplace risks.
